Ms. Amandeep Kaur

Frontend Developer / Web Developer

PHP, HTML, CSS, JavaScript, SQL, C, C++, Angular, React

Summary

Software Developer dedicated to improving skills through hands-on learning and development work. Adept at using HTML5, JavaScript and other programming languages to produce clean code. Well-organized and collaborative team player with strong communication and analytical abilities. Skilled in working under pressure and adapting to new situations and challenges.

Key Skills

- ✓ Programming Languages: C, C++, R Language, Core Java
- ✓ Database Management: Oracle, MySQL, SQL server
- ✓ PHP, JavaScript, jQuery, Ajax, Typescript
- ✓ Object-Oriented Programming (OOP)
- ✓ HTML, CSS
- ✓ Frameworks: Angular, Laravel, React
- ✓ Restful API, Data structures
- ✓ Analytical Thinking
- ✓ Software Components and Libraries
- ✓ Basics of SAP, ERP, AWS

Experience

IT Support Analyst, Goldman Sachs

December 2022 – Present

Responsibilities

- Monitoring and maintaining computer systems and networks.
- Responding in a timely manner to service issues and requests.
- Providing technical support across the company

Software Developer, Mind Relic Australia

July 2022 – December 2022

Responsibilities

- Skilled in software engineering process improvements and best practices, leveraging this knowledge to enhance the quality and efficiency of development projects.
- Proficient in web development, with experience in both frontend and backend technologies.
- Assisted with the design & development of multiple projects, providing input to ensure successful outcomes.
- Collaborated with development, QA, and user experience staff to create new products that met customer needs and exceeded quality standards.
- Designed and tested client-server network components, optimizing performance and functionality.
- Proficient in technologies such as Angular, Laravel, Visual Studio Code, Rest API, and Postman.
- Experienced with Typescript, CSS/SCSS, Angular CLI, and API integration.
- Implemented MVC patterns and OOPS concepts to create scalable, maintainable code.
- Created architecture using Visual Studio Code IDE, with frontend in Angular and backend in Laravel, ensuring optimal performance and compatibility

Programming Instructor, ITI

July 2017 – December 2018

Responsibilities

- Participating in lecturing students at Industrial Training Institute (ITI), with higher student satisfactory outcome.
- Helping and mentoring students for quality learning.
- Maintained excellent attendance record, consistently arriving to work on time.
- Communication and collaborations with academic management team how to improve quality learning resources and student's higher level of satisfaction.

E: deep27b@gmail.com

M: 0450440687

- Used critical thinking to break down problems, evaluate solutions and make decisions.
- Performed duties in accordance with applicable standards, policies and regulatory guidelines to promote safe working environment.
- Set up computers and delivered step-by-step instructions on basic use.

Key Projects

Data Analyst Project

- Data Set : Women in the workforce, Astronaut database
- Importing data from various sources using R Studio.
- Performed data wrangling, Cleaning of data, shaping the data to correct form, check variable types, manage bad and missing values.
- Applying statistical techniques to analyze the data and build models.
- Proficient in using R Studio, including data manipulation, visualization, and modeling packages.
- Created data-driven presentations utilizing visualizations such as bar graphs and line charts to effectively communicate trends and insights found through data analysis.

Buy and Sell Agriculture Products

- Deployed web-based transaction systems using application servers.
- Integrated web applications with back-end databases.
- Implemented architecture using NetBeans IDE where front-end was in PHP.
- Managed data using XAMPP server in structured query language (SQL).
- Implementation of HTML, CSS and JavaScript to design web pages attractive.

Fastway Cable TV Project

- Applied critical thinking how it can have dynamic web pages rather than static data.
- Planned, documented and executed tests to ensure code changes meet requirements and specifications.
- Cooperated with other project team members to develop website's concepts, interface design, and architecture.
- Implemented architecture using NetBeans IDE where frontend was in core java programming.
- Experienced database activities in Oracle 10g that saves data for easy retrieval, updating and many more operations.
- Implementation of HTML, CSS and JavaScript to design web pages attractive.

Education & Qualifications

- ✓ **Masters in Business:** Enterprise Resource Planning Systems (ERP), Victoria University Sydney, NSW, July 2021
Business and visualization, ERP systems, R programming, Computerised Accounting, SAP S/4 HANA, SAP Fiori, Customer Relationship Management
- ✓ **Masters in Computer Applications (MCA),** GNDU, July 2017
Object Oriented Programming, Data & File structures, Database Management Systems, Operating Systems, Development of Website using PHP, HTML, and SQL.
- ✓ **Bachelors in Information Technology** (BSc IT), GNDU, May 2014
Fundamentals of Computers, Introduction to Programming, Computer Organization & Architecture, C, C++ programming language, HTML, CSS, Data structures, MySQL.

Courses & Certifications

- ✓ UX Design and Web Design (INCO Academy – Australia 2023)
- ✓ Web Development + Coding (INCO Academy – Australia 2023)
- ✓ Data Analytics (INCO Academy - Australia 2023)
- ✓ Digital Marketing (INCO Academy - Australia 2023)
- ✓ Technology Virtual Experience-Deloitte, March 2023
- ✓ INCO Academy-Get into Tech, March, 2023
- ✓ PHP: Object-Oriented Programming - LinkedIn
- ✓ JavaScript Essential Training - LinkedIn
- ✓ Google Data Analytics-Coursera

E: deep27b@gmail.com

M: 0450440687

- ✓ SAP certificate in Computerized Accounting in an ERP System
- ✓ SAP certificate in Executive & Mobile Computing
- ✓ SAP certificate in Customer Relationship Management.
